

## Manage Music Automatically with Music Manager

### Manage Music, Manage MP3 and Media Automatically with Music Manager

Was released new edition of Music Manager, v 9.16. In new Music Manager made large number of improvements, especially related to increasing of stability and speed of music and media organizing, sorting and renaming process. First, in Music Manager was improved organizing of MP3 music files without any tag information or only with partial tag information. Now with Music Manager all they are automatically organized using information, which is available, even if it is partial. Also to Music Manager was appended possibility for easy image files organizing. Not a secret, that people, who collect music, also have large collections of photos. And all this photos are also need to be organized. We gathered large number of requests from our Music Manager users to append photo organizing possibilities to our program. And they are now available! In new version of Music Manager was appended a new wizard for photo organizing. It is named "Manage Photos" and is accessible over "Wizards" -> "Manage Photos" Music Manager top menu item. There are several standard methods of photo organizing: by camera model and manufacture, by photo dimensions (width and height), by photo content type (Color or Black and white, Photo, Drawing or Document scan, etc.), by photo creation date or something custom, that you can easily specify for yourself by pressing "Edit" button. In new version of Sort MP3 music manager are also were foreseen large amount of non-standard situations, that may occur. For example, if while MP3 music organizing free space on the destination hard drive will be too low to continue music organizing, a special notification will be shown and you will easily understand, what had happened. Another example of positive changes in Music Manager - if there will not be any MP3 music files in source folder and you will want to start MP3 music organizing, you will be notified, that there are no MP3 music files in the source folder to organize. Intuitive icon, which will be shown in addition to event description, will let you know, that there are no MP3 music files in source folder to organize. By just one click on this sign will be opened source folder (you don't need to go to Windows Explorer to find it) and you will have possibility to copy to it all MP3 music files, that you want to be sorted, organized and automatically renamed. As you know, Music Manager manage not only your MP3 music and music in 176 other formats and types, it also manage all your photos, movies, video clips, text documents (PDF, Microsoft Office, etc.), archives (ZIP, RAR, etc.) and all files, music and media inside of archives. Music Manager now is able to manage photos by variety of their tags and properties. In addition to standard tags, such as image width and height, size and comments, Music Manager now will also manage your photos by all types of EXIF, IPTC, GPS, JFIF, GeoTIFF, XMP, FlashPix, AFCP, ICC Profile, Photoshop IRB and variety of other image tags and properties. Music Manager even use camera manufacturer-dependant tags. It can manage photos using tags of Canon, HP, JVC, Victor, Casio, Leaf, FujiFilm, Nikon, Olympus, Epson, Pentax, Asahi, Ricoh, Sanyo, Sigma, Foveon, Konica, Sony and may other photo cameras. Music Manager know about your photos even more, that you know about them and use it's knowledge to manage your photos and media in the perfect way, even better as you may imagine.
